

QISSA

Qissa - The Filmmaking and Photography Society transcends, invigorates and vitalizes ideas. It visits transcendental worn clothes, sites of adventures, future for apocalypse, and tiny brain cells for thoughts to pick their story and give it life. Like the Eye of Horus, it captures everything within the aspects of a golden ratio. It is a machine of anecdotes that works with the constant effort of every unit and appreciates their difference. It is a beginning, a middle, an end. You can spot the Qissa-Walas by their quirks- The one with a camera, the one with a pen, the one with a green screen, the one dressed up like a character from F.R.I.E.N.D.S!

The society comprises of a group of young enthusiastic students passionate about Filmmaking and other aspects of it. Members at Qissa teach and learn all about the segments related to Filmmaking and Photography- from Pre-Production, Production and Post-Production to the rules of Photography.
